

UAT Plan

All tests will be conducted using the local host by classmates not in our project group.

1. User Login:

Acceptance criteria:

A user cannot submit a login form without completing all of the mandatory fields matching data in users table. Mandatory fields include:

- a. username
- b. Password

Test plan: after a user registers their account on RateMySeat, they are instructed to attempt to login with an incorrect username and or password, attempt to login without username and or password, and to login with the correct username and password.

Test results:

- ☐ User can successfully login with correct credentials
- ☐ User cannot submit login without completing mandatory fields
- ☐ User cannot login with incorrect username
- ☐ User cannot login with incorrect password

Test data: # of tests passed per tester

2. Add Review:

Acceptance criteria:

A user cannot submit an Add-Review form without completing all of the mandatory fields. Mandatory fields include:

- a. Review
- b. Rating
- c. Seat Section
- d. Seat Row
- e. Seat Number
- f. Event Name

Review and Rating from the form are stored in the reviews table. Seat Section, Seat Row, and Seat Number from the form are stored in the seats table. Event Name from the form is stored in the reviews_to_events table.

UAT Plan

Test plan: after a user has logged into their account on RateMySeat, they are instructed to attempt to add a review without each of the following separately: Review, Rating, Seat Section, Seat Row, Seat Number, and Event Name.

Test results:

- ☐ User can successfully add review with all mandatory fields
- ☐ User cannot add review without completing Review
- ☐ User cannot add review without completing Rating
- ☐ User cannot add review without completing Seat Section
- ☐ User cannot add review without completing Seat Row
- ☐ User cannot add review without completing Seat Number
- ☐ User cannot add review without completing Event Name

Test data: # of tests passed per tester

3. Forgot password:

Acceptance criteria:

A user cannot submit a 'forgot password' form without completing all of the mandatory fields matching data in users table. Mandatory fields include:

- c. username
- d. question

Test plan:

After a user has registered their account on RateMySeat, they are instructed to select 'forgot my password' on the login page. Users are then instructed to retrieve their password with an incorrect username, and or answer their personal question incorrectly.

Test results:

- ☐ User cannot retrieve password with incorrect username
- ☐ User cannot retrieve password with incorrect answer to their personal question.
- ☐ Users can retrieve password with correct username and answer to their personal question.

Test data: # of tests passed per user
